10/31/66

Mr Weisberg:

Having carefully read your splendid book "White Wash" and having digested the charges and accusations contained therein, I am convinced that there is a pressing need for a Congressional Investigation of the Crime, or Crimes, committed in Dallas on 11/22/63; and, if Politically possible, an investigation of the men responsible for the findings as contained in the report.

I should greatly appreciate your advise on the person or persons to approach expressing my desire for such action to be instituted.

Furthermore, on a related subject, why has neither Mrs Oswald or Lee Oswald's mother been advised to institute suit against the Dallas Police Dept charging culpable negligence and gross dereliction of duty, for failure to properly protect the prisoner in their custody?

Congratulations on a great book.
